Industrial Applications

1. Engineering Industry

We provides **precision CNC machining, job work, component manufacturing, and SPM solutions** for a wide range of engineering applications. We cater to specific customer requirements while maintaining accuracy, consistency, and reliable quality.

2. Railway Industry

We undertake **precision machining and job work for railway and allied applications**, manufacturing components as per required specifications and standards. Our focus on dimensional accuracy, quality inspection, and timely delivery ensures dependable solutions for the railway sector.

3. All Types of Machining Work

Our machining capabilities cover **CNC turning, CNC machining, conventional machining, drilling, and specialized job work** for various industrial components. With modern machinery and precision inspection equipment, we deliver components that meet required dimensions, tolerances, and quality standards.

4. Automobile Industry

We undertake **all types of machining work for the automobile industry**, including precision machining and manufacturing of various automotive components. Our CNC machining capabilities and quality inspection processes ensure accurate, consistent, and reliable components as per customer specifications.

5. Fabrication Works

We undertake **various types of industrial fabrication works**, providing reliable and durable fabricated components and structures as per project requirements. Our focus is on quality workmanship, dimensional accuracy, and timely completion of fabrication jobs.

Workforce & Job Work Capabilities

We have a dedicated workforce of around **40 skilled employees**, comprising **1 Manager, 2 Supervisors, 2 Engineers, and a trained team of skilled workers and machine operators**. Our business is primarily focused on **job work manufacturing**, catering to diverse industrial requirements with flexibility, precision, and consistent quality. Our experienced team and machining capabilities enable us to handle a wide range of components and manufacturing requirements efficiently.
