

# Om Enterprises

*Innovative Solar Solutions for a Greener Tomorrow!*

GSTIN :27GRSPB8822G1ZD

# ABOUT US

**Om Enterprises** has over 10 years of experience in the solar energy sector, beginning with the trading of high-quality solar components and later expanding into complete solar panel installation services.

Founded in **2015 by Mr. O.S. Bodke**, a seasoned technocrat, the company specializes in sourcing and installing solar panels for residential, commercial, and industrial applications.

The company operates from its registered office and manufacturing facility at **First Floor, Patel Arcade, Dindori Road, Panchavati, Nashik-03.**

**Om Enterprises** provides trading and installation services for ready projects, specializing in mechanical and solar components. With trusted sourcing and expert execution, the company ensures quality and timely delivery across all installations.

# VISION & MISSION

## Vision

To be a leading provider of sustainable solar energy solutions, empowering communities & businesses to embrace clean, affordable, and reliable power for a greener future.

## Mission

Our mission is to deliver quality solar products and expert installation tailored to clients' needs. We strive to promote sustainable energy adoption through reliable and innovative solutions.
